DECENTRALISATION OF INDUSTRIES

945. SRI K. LAKKAPPA (Kunigal).—Will the Minister of Industries be pleased to state :—

a) whether the Government is considering seriously decentralisation of Industries both Major and Medium Industries in the State :

b) whether new infrastructure like Water, Power Land etc., has been established speedy implementation of such rapid industrial growth in district levels ?

SRI S. M. YAHYA (Industries Minister)—

a) Yes. In this direction, the State Government have constituted a State Level Single Window Agency and powers have been delegated to this agency for quick disposal of cases pertains to Industries.

b) Yes.

ಶ್ರೀ ಕೆ. ಲಕ್ಕಪ್ಪ.—ತಾವು ಎಲ್ಲದಕ್ಕೂ ಉತ್ತರ 'ಹೌದು' 'ಹೌದು' ಎಂದು ಹೇಳಿದ್ದೀರಿ. ಈಗ ಸಿಂಗಲ್ ವಿಂಡೋ ಪಿಜೆನ್ಸಿ ಎಂದು ಹೇಳಿದಿರಿ. ಒಬ್ಬರು ಕೈಗಾರಿಕೆಯನ್ನು ಸ್ಥಾಪನೆ ಮಾಡಬೇಕಾದರೆ ಫೈನಾನ್ಸ್ ಕಾರ್ಪೊರೇಷನ್‌ನವರು ಸಾಲ ಕೊಡತಾರೆ. ನಿಮ್ಮ ಫೈನಾನ್ಸ್ ಕಾರ್ಪೊರೇಷನ್‌ನವರು ಸಾಲವನ್ನು ಕೊಡಬೇಕಾದರೆ ವಾಟರ್, ಪವರ್, ಲ್ಯಾಂಡ್ ಎಕ್ಸ್‌ಟ್ರಾ ಎಲ್ಲಾ ಮಂಜೂರಾಗಿ ಪ್ರೊಡಕ್ಷನ್ ಪ್ರಾರಂಭವಾದ ಮೇಲೆ ರಿಕವರಿ ಮಾಡುವುದುಂಟು. ಇಲ್ಲಿ ಇನ್‌ಫ್ರಾಸ್ಟ್ರಕ್ಚರ್ ಕೊಡದೇ ಸಾಲ ಕೊಟ್ಟು ನೀರು, ಎಲೆಕ್ಟ್ರಿಸಿಟಿ, ಲ್ಯಾಂಡ್...ಮೂರೂ ಇರುವುದಿಲ್ಲ. ತಕ್ಷಣ ತಕ್ಷಣ ನೋಟೀಸ್‌ಗಳು ಬರುತ್ತವೆ. ಸಾಲ ವಾಪಸ್ ಕೊಡಬೇಕು ಬಡ್ಡಿ ಹಾಕಿದ್ದೀವಿ ಎಂದು. The purpose Single window agency has not been served in this organisation. Therefore, I would like to know whether you ensure the industrialists would get all the infrastructure completely approved and sanctioned. At production stages only they have to issue notices if there is any recovery of principal or interest or whatever it is ? Will you kindly assure that the single window agency has to ensure its purpose and object in organising industries and providing loans to industrialists. Otherwise, number of industries have been perished away and no industry has been started and even in industrial areas also so many industries have not been started due to shortage of infrastructucal facilities.

SRI S. M. YAHHA.—The main object of the Single Window Agency is quite clear that it should expedite the facilities that the entreprenuer would like to have. That has been the main objective. The objectives are very clear. 1) finalisation of action plan, 2) Preparation of the plan for the provision of industrial infrastructure facilities which we have asked. 3) Grant of assistance to entreprenuers in all respects towards establishment of industry that comes. 4) Finance, 5) administration of package of incentive of concessions to the SSI units. These being objectives we have seen that the single window agencies should effectively performed.

The only problem as pointed that the financial Corporation before they could start the industry they go on demanding interest and part of the capital due. This matter which is of administrative nature we have to think. If the delay is due to providing infrastructure certainly we will request the financial Corporation not to go and create financial problems to the units.

SRI K. LAKKAPPA.—Whether it is not a fact that a number of units which are financed by financing institutions have been perished away and infact syme of them have even not started because of the lack of infrstructural facilities provided and probably that they have started collecting money from them and with that a number of industries starving and they have become sick and in many cases (even in Tumkur District)about Rs. 50-60 lakhs subsidy has not been paid. For that, Industries have also become sick. Therefore, I would like to know what steps you are going to take in this regard to see that small scale industries and medium industries are flourished ? Even in district headquarters in various places they have started industrial sheds and so for they have not developed, therefore, I would like to know whether the Government consider all these aspects and come forward for rapid industrial growth and consider all these aspects as very important and see the expeditious methods are taken to see that subsidies and infrastructural facilities are provided immediately and take a structural changes in these matters ?

SRI S. M. YAHYA.—We are going to make structural changes tremendously which will be announced within a few days. In the meanwhile; a point has been raised that the subsidy has not been providid in time as promised by the Government. It is also true that the previous Government which they ought to have released the subsidies to the small scale units it amounts to Rs. 35 crores. Money flow was not there and money was not there and this is one of the reasons for initial sickness. Now, our Government has taken this matter very seriously and whatever liability put on our head by the previous Government we have released and so for we have released about Rs. 8-9 crores as subsidy.

SRI M. RAJASHEKARA MURTHY.—The total amount due as both development loan and subsidy right from 1983-84 was Rs. 85 crores out of them I have been able to pay a huge sum and the balance to be paid is only Rs, 35.6 crores. so, nearly we have paid Rs. 50 crores of the backlog and we have cleared the backlog to this extent From 1983 we have come upto 1987. I am going to released list shortly where some more industrialists are getting benefit. I am trying to liquidate the burden shortly.

SRI A. K. ANANTHA KRISHNA.—The major reasons for the sickness of the industry, as I know, is lack of co-ordinate effort on

the part of the organisations which are entyicing entreprenures to take up industries like financial institutions, banks, KIDC, Industries Dapartment, dealing with the subsidy and loans and all these departments, they do not act in proper co-ordination with proper understanding with entreprenuers difficulties. Each one of them entice to come and start the industry and once they start the industry either one of them does not act in unisan with the rest of the institutions the industrialists suffer and soon after the enterprenuers suffer, then each one of them start throtting the entreprenures. This is what is happening. My question is, whether in the dynamic effort that the Industries Minister has just now referred to, to bring in structural changes in a radical manner, would be ensure that all these organisations which are responsible for successful industrial growth to work with proper understanding with each other ?

SRI S. M. YAHYA.—The very concept of Single Window agency to is have a coordinated and concerted efforts of all the agencies. financial and other agencies, but it does not happen, as a result of which there are very many problems that the entreprenures will have to face. So our efforts is, this Single Wndow Agency, which is a good concept should be made very effective.
